Dear Valued Microsemi Customers and Channel Partners,

Today Microchip Technology announced the signing of a definitive agreement to acquire Microsemi Corporation. The transaction is subject to the approval of shareholders of Microsemi, regulatory approvals and customary closing conditions. We expect the transaction to close in the second calendar quarter of 2018.

Microchip is a leading provider of embedded control solutions through our Microcontroller, Mixed-Signal, Analog, Wired and Wireless Networking, Security, Timing, Flash IP and Memory product lines. This acquisition adds Microsemi's strong portfolio of Specialized Ethernet, Storage and Optical Networking Microcontrollers, FPGA, Wireless, Timing, Analog and Mixed-Signal products to Microchip. The combined product lines of Microchip and Microsemi will offer you a broader range of innovative solutions to serve your needs.

For now, and until the transaction closes, it will be business as usual for customers and channel partners. We will communicate any changes to you in a timely fashion after the transaction has closed. But for the foreseeable future, we request that you continue to do business using your current Microsemi contacts and processes.

Together, we remain committed to providing you with outstanding customer service, advanced technology solutions, industry-leading supply chain management, and world-class quality and manufacturing. We look forward to a long and mutually beneficial relationship.

If you have any questions or concerns, please contact your local sales contact.
