

HARDWARE USER GUIDE

Atmel CryptoAuthentication AT88CK101 Daughterboard

Introduction

The Atmel® CryptoAuthentication™ AT88CK101 is a daughterboard that interfaces with a MCU board via a 10-pin header. The daughterboard has a single 8-pin SOIC socket which can support the Atmel ATSHA204A, ATAES132A, ATECC108A, and ATECC508A crypto element devices. The daughter board comes in two different variations with a socket that supports either an 8-lead SOIC or an 8-lead UDFN/XDFN. This kit uses a modular approach, enabling the daughterboard to connect directly to an STK series Atmel AVR® or Atmel ARM® development platform to easily add security to applications. An optional adapter kit is also available when the 10-pin header on the daughterboard is incompatible. The AT88CK101 provides a test point header for the I²C, SWI, and SPI signals. The AT88CK101 is sold with the Atmel AT88Microbase module to form the Atmel AT88CK101-XXX Starter Kit. The AT88Microbase AVR-based base board comes with a USB interface that lets designers learn and experiment on their PCs.

Contents

- Atmel AT88CK101 Daughterboard

Features

- 8-lead SOIC and UDFN/XDFN Socket
- Supports the ATSHA204A, ATAES132A, ATECC108A, and ATECC508A Devices
- Supports Communication Protocols:
 - I²C
 - SWI (Single-Wire Interface)
 - SPI
- Power LED
- Test Points Header

AT88CK101 Starter Kit

The AT88CK101 is sold with the Atmel AT88Microbase module to form the AT88CK101-XXX Starter Kit. For additional information on the AT88Microbase, refer to the [Atmel AT88Microbase Hardware User Guide](#).

Configurations

The below table describes the how to configure the AT88CK101 with respect to the AT88Microbase and the STK/EVK development platforms.

Table 1. AT88CK101STK8 Starter Kit Configuration Guide

AT88CK101STK8 Starter Kit Configuration Guide			
Communication Interface	AT88Microbase (K1 Switch)	AT88CK101 (K1 Switch)	AT88CK101 Jumper (H5)
TWI	TWI	uBase	Open
SPI	SPI	uBase	Mounted
SWI (UART)	—	SPI	Mounted
SWI (GPIO)	SPI	uBase	Open

ATMEL EVALUATION BOARD/KIT IMPORTANT NOTICE AND DISCLAIMER

This evaluation board/kit is intended for user's internal development and evaluation purposes only. It is not a finished product and may not comply with technical or legal requirements that are applicable to finished products, including, without limitation, directives or regulations relating to electromagnetic compatibility, recycling (WEEE), FCC, CE or UL. Atmel is providing this evaluation board/kit "AS IS" without any warranties or indemnities. The user assumes all responsibility and liability for handling and use of the evaluation board/kit including, without limitation, the responsibility to take any and all appropriate precautions with regard to electrostatic discharge and other technical issues. User indemnifies Atmel from any claim arising from user's handling or use of this evaluation board/kit. Except for the limited purpose of internal development and evaluation as specified above, no license, express or implied, by estoppel or otherwise, to any Atmel intellectual property right is granted hereunder. ATMEL SHALL NOT BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RELATING TO USE OF THIS EVALUATION BOARD/KIT.
