Item 2. Identity and Background

This Amendment No. 3 to Schedule 13D is being filed by Microchip Technology Incorporated, a Delaware corporation (“Microchip” or the “Reporting Person”). The address of the principal business office of Microchip is 2355 West Chandler Boulevard, Chandler, Arizona 85224-6199.

The principal business of Microchip is the development and manufacturing of specialized semiconductor products used by its customers for a wide variety of embedded control applications.

The name, present principal occupation or employment, present business address and country of citizenship of each director and executive officer of Microchip is set forth on Schedule I attached hereto.

During the past five years, neither Microchip nor, to the best of Microchip’s knowledge, any director or executive officer of Microchip, has been (i) convicted of a criminal proceeding (excluding traffic violations or similar misdemeanors) or (ii) a party to a civil proceeding of a judicial or administrative body of competent jurisdiction and as a result of such proceeding was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting or mandating activities subject to, federal or state securities laws or finding any violation with respect to such laws.

Item 3. Source and Amount of Funds or Other Consideration

Not applicable.

Item 4. Purpose of Transaction

This Amendment No. 3 is being filed in connection with the sale of an aggregate of 233,951 shares of Common Stock as described in Item 5. This Amendment No. 3 also reflects the purchase of certain put options to acquire shares of Common Stock, which were previously sold by Microchip, as described in Item 5. Microchip acquired certain of the shares reported in this Schedule 13D as being beneficially owned by Microchip in open market transactions prior to May 13, 2008. Microchip may also acquire or sell additional shares of the Issuer's common stock except as described herein, although Microchip may do so depending on market conditions and other factors that it deems appropriate in its sole discretion. Microchip also reserves the right to dispose of some or all of the shares of Common Stock at any time in the open market, in privately negotiated transactions to third parties or otherwise as it deems appropriate in its sole discretion. Any of the foregoing actions could lead to one or more of the events referred to in paragraphs (a) through (j), inclusive, of Item 4 of Schedule 13D, including, potentially, one or more mergers, consolidations, sales or acquisitions of assets, change in control, issuances, purchases, dispositions or pledges of securities or other changes in capitalization.

Based on such information and including the transactions described in Item 5(c) below, Microchip reports beneficial ownership of 953,449 shares of Common Stock, which represents 7.4% of the total number of issued and outstanding shares of Common Stock. Voting and dispositive power with respect to such shares of Common Stock is held solely by Microchip.
