**MICROCHIP TECHNOLOGY INCORPORATED ANNOUNCES PRICING OF  
\$1.5 BILLION OFFERING OF 1.625% CONVERTIBLE SENIOR  
SUBORDINATED NOTES DUE 2025**

Chandler, Arizona – February 6, 2015 – (NASDAQ: MCHP) – Microchip Technology Incorporated, a leading provider of microcontroller, mixed-signal, analog and Flash-IP solutions, today announced the pricing of \$1.5 billion aggregate principal amount of convertible senior subordinated notes due 2025 (the "notes") in a private placement to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Act"). The size of the offering was increased from the previously announced \$1 billion in aggregate principal amount. Microchip also granted the initial purchasers of the notes a 30-day option to purchase up to an additional \$225 million aggregate principal amount of the notes to cover over-allotments, if any. The sale of the notes to the initial purchasers is expected to settle on February 11, 2015, subject to customary closing conditions, and is expected to result in \$1.47 billion in net proceeds to Microchip after deducting fees and estimated offering expenses payable by Microchip (assuming no exercise of the initial purchasers' over-allotment option).

The notes will be unsecured obligations of Microchip, and will be subordinated to Microchip's senior debt, including amounts borrowed under its amended credit facility, but will be senior to Microchip's outstanding 2.125% Junior Subordinated Convertible Debentures due 2037 (the "existing debentures"). The notes will bear interest at a rate of 1.625% per year. Interest will be payable semi-annually in arrears on February 15 and August 15 of each year, beginning on August 15, 2015. The notes will mature on February 15, 2025, unless earlier repurchased or converted.

Microchip has agreed, concurrently with this offering, with certain holders of its existing debentures to acquire approximately \$575.0 million aggregate principal amount of existing debentures for an aggregate purchase price of approximately \$1,136.5 million. The remaining net proceeds will be used to reduce borrowings under its amended credit facility.
